*L*ite Tops is the industry leader in manufacturing lampshades. A true American manufacturing firm, located in Linden, NJ, our full line of shade products are entirely made in the USA by our staff of talented craftspeople, using only the finest materials. Our broad selection of sizes, styles and materials allow our customers the ability to meet every retail or commercial need. We pride ourselves on superior quality and on-time delivery, while meeting our customer's budget needs.

Lite Tops, a division of Cutting Edge Industries, strives to achieve environmentally friendly manufacturing processes, such as generating over 75% of our electricity from our on site rooftop Solar array, as well as using low VOC finishing materials and recycled packaging products.

LINING OPTIONS

Lite Tops offers a choice of (4) distinct colored linings. Create shades your customers will not find elsewhere! Available colors are Egg, White, Gold or Black. Unless specified, white is used as standard.

PIPING

Piping of ribs are included on all shades at no extra charge. If you do not want piping or you only want the seams piped you must notify us at the time of your order. Price will not be affected regardless of choice.

FRAMES

All silk frames are made from heavy duty wire with brass plated spider and washer, coated with a lacquer finish to prevent rust.

SOFTBACK LAMPSHADE COVERING SELECTIONS

CLASSIC STRETCH

Classic Stretch

Flat non-pleated fabric stretched tightly conforming to the shape of the frame. The most basic and popular of all silk shades, simple and elegant, this classic design continues to stand the test of time.

Shown: LT743-26-016
Ash Geneva Linen

SHIRRED PLEAT

Shirred Pleat

A tightly gathered continuous vertical pleat. A proven best seller throughout the years shows that some things never go out of fashion. **Add suffix letters “SHR” to style number when ordering.**

Shown: LT774SHR-56-005
Gold Silk Shantung

RANDOM PLEAT

Random Pleat

This loosely gathered pleat adds a "soft", and unique look. A welcome change to the traditional stretch. Can be made in most of our soft back materials. **Add suffix letters “RP” to style number when ordering.**

Shown: LT735RP-01-060
White Tissue Shantung

RIPPLE PLEAT

Ripple Pleat

An unusual design created with a vast array of small gathered pleats forming a “ripple” effect from top to bottom throughout the shade. This uniquely crafted look is a sure attention grabber! **Add suffix letters “RPL” to style numbers when ordering.**

Shown: LT789RPL-18-004
Ivory Shadow

SOFTBACK LAMPSHADE COVERING SELECTIONS

VICTORIAN PLEAT

Victorian Pleat

A "handformed" oversized box-type pleat joined with a "soft drape" between, creates one of the most magnificent and uniquely designed shades offered anywhere. Very formal and richly elegant. This one is hard to pass up! **Add suffix letters "VP" to style numbers when ordering.**

Shown: LT715VP-68-007
Wine Butcher Linen

SIDE PLEAT

Side Pleat

A flat, crisp layered "handformed" pleat. (not machine made) This style creates an extremely elegant and formal look. **Add suffix letters "SP" to style numbers when ordering.**

Shown: LT735SP-02-009
Beige Tissue Shantung

BOX PLEAT

Box Pleat

A wide "handformed" "box" pleat design. (not machine made) This classic streamlined look adds a very formal, rich elegance to your décor. (The width of the "handformed" pleat is determined by the shape) **Add suffix letters "BP" to style numbers when ordering.**

Shown: LT789BP-21-005
Tan Shadow

SOFTBACK LAMPSHADE COVERING SELECTIONS

FRENCH DRAPE

French Drape

A classically designed stretch shade with six to eight added separate sections of pleated fabric covering each rib forming a “V” shaped design. **Add suffix letters “FD” to style numbers when ordering.**

Shown: LT736FD-11-013
Eggshell Silksheen

INVERTED FRENCH DRAPE

Inverted French Drape

The difference here is that every other drape is inverted, creating a unique twist on a popular and proven best seller. **Add suffix letters “IFD” to style numbers when ordering.**

Shown: LT715IFD-04-013
Natural Butcher Linen

AMERICAN DRAPE

American Drape

Made the same way as the French Drape except the added pleated fabric is applied uniformly straight from top to bottom of shade. Give a very different look that many prefer. **Add suffix letters “AD” to style numbers when ordering.**

Shown: LT715AD-33-100
Oyster Butcher Linen

“V” DRAPE

“V” Drape

Our classic stretch shade with two crisply folded pleats forming a “V” design. This design is added separately and sectioned over each rib. Very Unique! (not to be confused with the French Drape). **Add suffix letters “VD” to style number when ordering.**

BEFORE

"We specialize in the custom restoration of your lampshade. For many years, customers have brought their family heirloom lampshades which hold significant sentimental value to Lite Tops for restoration. Whether selecting traditional, natural fabrics or updating the look of your lampshade with bolder brighter colors, we can help!"

AFTER

"First, we carefully remove the piping, the top and bottom trims and fringe, if installed, so that they may be reused if desired. Next, we strip the frame work of the exterior fabric and then the interior lining materials. Then we'll assess the long-term durability of the frame. If need be we'll re-weld broken ribs and spiders, remove the rust from old, weathered metals then spray the frame with rust inhibiting lacquer. Last, our experienced team goes to work rebuilding your lampshade. Shown here in our before and after photos is an actual custom lampshade recovery brought to us by one of our valued customers."

HOW TO MEASURE A LAMPSHADE

Buying a lampshade is like buying a pair of shoes, the best way you can come up with a winner is to try them on for size.

Bring your lamp base with you for a proper fit... If this is not possible, measure:

_____ (A) Top _____ (C) Side
_____ (B) Bottom _____ (D) Drop

All of our lampshades are measured by TOP X
BOTTOM X SIDE

- I) The height on all round shades are measured on the outside slant (not the center height)
- B) The height on all ovals are measured at the outside slant of the ends.
- C) The height on all panel shades are measured at the outside slant of the corners.

At eye level, the bottom of the shade should cover the bottom of the socket.

In most cases, your harp determines where the shade sits on the lamp base.

If the shade doesn't fit properly, a new harp will probably solve the problem. Knowing the dimensions of the old shade could be enough, but it does not guarantee a good fit.

Oriental

Drum

Empire

Bell

**As you can see, many different styles and shapes will fit properly.
A new shade can change the look of your base at a fraction of the cost of a new lamp.
Our shade experts can help you select and fit a lampshade that's just right.**

TRILAMINATION

Trilamination is a process, whereby three materials are laminated together in order to protect the fabric from staining or other contaminants. The fabric is laminated in between an outer layer of clear vinyl and a styrene backing. The clear vinyl outer layer allows the surface of the shade to be wiped with a damp cloth, to be cleaned of any surface dust, grease or other particles. Trilaminated shades can be placed in areas that normal fabric lamp shades would be destroyed. Ideal places for trilaminated shades are restaurants (near the kitchen), hospitals, or other places that are exposed to increased dirt, dust or grease. Only fabrics that are smooth of ridges and large weaves are ideal for trilamination, such as linens.

GETTING TO KNOW LITETOPS AND TERMS AND CONDITIONS

The management and sales personnel of LiteTops are committed to helping you market the finest quality lampshades at the most competitive price in our industry.

Sizes

With this in mind we offer the following:

Selected sizes are offered in this catalog to help the retailer choose the most popular, best selling items. LITE TOPS carries thousands of sizes outside of this catalog to fill any potential order the retailer may have. Contact our factory or your sales representative for information.

Shade Protection

All LITE TOPS lampshades are hand roll wrapped with highly translucent, non-shrinking polypropylene, with the exception of small candle clip shades which are protected with elastic covers.

Tagging

We use (2) part perforated tags to make re-ordering easier. Pre-pricing is available at no extra charge, however, YOU MUST PROVIDE THE RETAIL PRICES WITH YOUR ORDER.

Delivery

Our normal delivery is three (3) weeks on hardbacks and four (4) to six (6) weeks on all silks and panel shades unless you specify otherwise. We realize the importance of meeting delivery commitments and we honor them accordingly.

Terms

Net thirty (30) days from date of shipment. A service charge of 1½% per month will be applied to all past due invoices.

New Accounts

One (1) bank and three (3) trade references, preferably industry related, must accompany your initial order. References should include addresses, phone numbers and at least one contact name. If initial order is needed prior to completion of our credit check, payment in full is required prior to processing the order.

Minimum Orders

Wholesale orders must total \$200.00. In the event that your order does not meet this amount a \$25.00 service charge will be added. A minimum of two (2) pieces per style, size and color must be ordered at a time. If only one piece is ordered, please add 50% to the listed price of the shade.

Cancellations

Orders are not subject to cancellation once accepted by our factory. If shipment is refused or cancelled, a re-handling surcharge of 10% of the order total will be applied.

Shipments

All shipments are F.O.B. our factory. Please specify on your order any special trucking preferences you may desire, otherwise our Traffic Department will select the most economical and dependable one available.

Claims

Any claims for errors, shortages or defective shades must be made within fourteen (14) days of receipt of shipment. No returns or allowances will be accepted without prior written factory approval.

Freight Claims

We do not assume responsibility for damages or carton shortages in transit. In the event that a problem occurs, it is your responsibility to file a claim against the freight carrier. UPS and FedEx damages must be held in the original carton for inspection. Be sure to note on your Bill Of Lading all damages at the time of delivery to avoid any problems when filing a claim.

Return Policy

Our shades are custom made to order and cannot be returned for credit.

NO DEFECTIVE OR DAMAGED MERCHANDISE MAY BE RETURNED WITHOUT PRIOR WRITTEN AUTHORIZATION.

Once authorized the following procedure must be followed to receive credit for returned goods:

- 1) You must notify our customer service department of the specific items in question in writing (fax or e-mail) to avoid any discrepancies. Please request a RGA (return goods authorization) number from our customer service department for internal tracking.
- 2) All merchandise for return must be well packed in its original carton or in a similar fashion to avoid further damage. Merchandise must be returned to us within fourteen (14) days of RGA approval. Failure to do so may void any credits you may be entitled to.
- 3) The RGA number must be clearly marked on all cartons and packing lists to ensure accurate processing of your claim.

PLEASE NOTE: LITE TOPS WILL NOT PAY FREIGHT CHARGES ON ANY MERCHANDISE RETURNED TO US AFTER THE FOURTEEN (14) DAY CLAIM PERIOD EXPIRES.
